

CREW TRAINING - SAFE ACCES TO VESSEL

VESSEL: M/T BW KESTREL

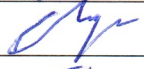

DATE: 25th April 2018

On 25th of April 2018 a meeting was carried out and attended by all the below mentioned officers and crew. Following points with regards to the safe access to vessel were among those discussed:

- Accommodation gangway limitations with regards to maximum persons allowed, maximum weight, maximum angle of inclination
- Portable gangway limitations with regards to maximum persons allowed, maximum weight, maximum angle of inclination
- Positioning of boarding equipment
- Proper rigging of gangways
- Procedure for alternative means of boarding in case the gangway is over its limitations
- Proper watch to be maintained for gangway position especially in tidal ports

References were made to procedures from COWSP Chapter 22, ISGOTT Chapter 16.4 and maker drawings.
