

Using of pilot ladders

Warning!

You are obliged to thoroughly inspect pilot ladders before and after each use.

- 1) The condition of ropes needs to be checked
- 2) The close inspection of each of the pilot ladder steps must be made to identify any steps that show early signs of cracking
- 3) Pilot ladder needs to be properly secured to a strong point on the deck
- 4) Once the pilot boards the ship area where he would keep his first steps need to be clear
- 5) Pilot ladders should be secured when not use
